

• Your search for fire stopping systems **stops here**

Intumex® RS10

Fire stopping collar for walls and floors in both surface-mounted and built-in conditions. It is suitable for all common plastic piping materials as well as for pressure pipes.

Intumex® UC

A unique method of protecting plastic pipes which pass through fire resistant walls and floors.

Intumex® AX

An intumescent material designed to compensate for breaches in fire resistant drywalls that are penetrated by recessed electrical boxes.

Intumex® AC

Intumex® AC is a water based ablative cable coating designed for the fire protection of single cables and cable bundles.

Intumex® SB

For use with high density mineral wool. Mineral wool coated with Intumex® SB will remain in place and form a barrier against fire.

Intumex® AS

an acrylic based, single component fire stopping sealant, suitable for accommodating movement.

Intumex® AN

Intumescent fire resistant sealant ideal for sealing building joints and penetrations. can be over painted and is smoke and gas tight at ambient temperature.

Intumex® MG

Intumescent fire protection sealant for metal pipes. Can be used in combination with mineral wool batts.

Intumex® IBS

A flexible backing strip for control joints & penetration seals.

Intumex® FB

Permanently elastic intumescent brick, which is used to prevent the spread of smoke and fire.

Intumex® FC

Hard setting high performance cement requiring lower thicknesses than conventional mortars and will provide up to 240 minutes fire resistance.

Intumex® RS50

Fire stopping collar for plastic pipes from 355mm to 500mm in walls and floors in surface-mounted condition.

Intumex® L

Intumescent fire protection laminate for steel, wood, aluminium and glass doors. This is used as a hot gas seal for steel doors and can also be used with fire resistant glazing.

Intumex® PS

Fire protection pillows which are dust free and reusable. They can prevent fire from spreading through cable and piping penetrations and are ideal for use in rooms with a high density of computer and telecommunications cabling.
